

Shanghai Tianyang Steel Tube Co.,Ltd

DIN series high precision BA seamless steel tube

Our products have six main characteristics:

No oxidation layer on the outer and inner walls
High precision
No distortion after cold bending

No leakage under high pressure
High cleanness
No crack under flaring and flattening

Tube used in Hydraulic system

Main Norm

DIN2391-94/C DIN2445 EN10305

Tube used in Engineering machinery

Main Steel Grade

St37.4 St35 (E235) , St45 (E255) , St52 (E355)

Tube used in Automobile industry

Delivery Condition

NBK(+N) BK(+C) GBK(+A)

Tube used in Machine Tool industry
